Cocotte serving board MAPUTO

Perfect your presentation in our popular cocottes with the serving board MAPUTO made of solid oak or walnut wood. Practical slots on the length of the board hold the lids and a drip tray made of stainless steel 18/10 absorbs possible condensation. In addition, a practical handle and the front-sided hand recess make the serving very easy. Suitable for cocottes up to Ø 13 cm. Serving board not dishwasher safe! Drip tray dishwasher safe!

Mini pot KUPARI

Ideal for small portions: Our mini pots are suitable for all heat sources, except induction. Their high-quality 3-ply multi-layer material (2 mm) ensures a high thermal conductivity with even, energy-saving heat distribution. All handles are sturdy and riveted. The outside in copper will develop over time its typical, popular patina.

Suitable for all kinds of stoves (except induction). Handles riveted.

Ovenproof up to 220 °C (convection oven). Not suitable for microwaves and dishwashers!

HOLLY, 1000 ml
5⁹⁹

Lock system Lock & Eat

The glasses HOLLY are equipped with the lock system Lock & Eat, which allows easy opening and closing.

Perfect for preserving, boiling and salting.

The glasses are dishwasher safe, suitable for freezing and microwaveable (except rubber ring and clip).

The glasses are also suitable for serving without lid.

Swing top glass HOLLY

Whether preserving, serving or dining: The swing top glasses of series HOLLY are real all-rounder. With their innovative glass lid and the stainless steel clip, the glasses and carafes are easy to open and close - ideal for continuous use in gastronomy! A rubber ring made of natural rubber ensures that the glasses can be closed airtight - boiling or freezing is no problem.

The highlight: The glasses are stackable to save space in the kitchen!

Material: Glass. Rubber: Natural rubber. Swing top: Stainless steel.

Dishwasher safe and microwaveable (except rubber ring and clip)!

Stackable! Suitable for freezing!

Mini glass
DILA
4⁹⁹

■ Double-walled insulated
■ Borosilicate glass

Your benefit

Borosilicate glass: Tolerates temperature changes of approx. 130 °C: Save money due to less breakage

Coffee & Tea glass DILA and DUOS

For hot and cold drinks. Tolerates temperature changes of up to 130 °C. The airtight space between the glass walls prevents fogging of the glass inside and outside. Your drinks keep their temperature longer and the hands of your guests are protected by the insulation.

Material: Borosilicate glass. No condensation! Dishwasher safe and microwaveable!

Tabletop series COMMUNITY

Combine the plastic modules from the vase over the menu and napkin holder to the cutlery and waste container in colors brown, grey or green just as you desire. Thus, everything on the table finds its place and looks perfectly tidy. And the best: All plastic modules can be inscribed with our chalk markers. Glass vase ref. 10027585 for table vase container must be ordered separately.

UV-resistant and weatherproof! Modules also suitable for outdoors!

VEGA quality

For our cutlery series applies:

- Most of our cutlery series are made of mirror polished 18/10 stainless steel. That means: The cutlery is dishwasher safe, rust proof and dimensionally stable.
- The weight of each cutlery piece is perfectly balanced, and the edges are carefully rounded. As a result, the cutlery is well and safe in the hand.
- Our monoblock table knives are forged from one piece of steel. This makes the knife sturdy and robust and ensures a smooth transition between the handle and the blade.
- In the hollow handle knives, the blade is cemented in the knife handle. The result: A high-quality blade steel combined with a noble, lightweight 18/10 hollow handle, so the knife is perfectly balanced. A large-volume knife tilts when serving not so easy from the rim of the plate.
- Decors and surfaces are manufactured in precision work. This results in an aesthetic, uniform appearance.

Material thickness 3 mm

Cutlery series SALERNO

Especially appealing is the fine design element of the slightly upward bent tip at the end of the handle. As a result, the cutlery parts are comfortable in the hand.

Chrome-nickel stainless steel 18/10! Material thickness 3 mm (measured at the thickest point of the table fork)! Mirror polished! Dishwasher safe! 10-year availability guarantee!

Cutlery series MARTELLLO

This traditional and yet completely new design will capture the heart of your guests: The lightweight, hammered cutlery is well in the hand. All handles of the mirror polished cutlery range from the espresso spoon to the steak knife enclose a fine relief on both sides. Matching porcelain PIKE can be found at www.em-group.com.

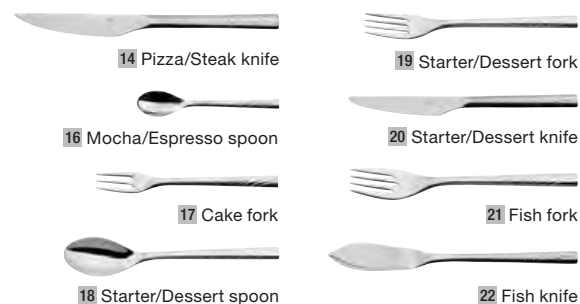

Chrome-nickel stainless steel 18/10! Material thickness 3,5 mm (measured at the thickest point of the table fork)! Mirror polished! Dishwasher safe! 10-year availability guarantee!

Table fork
GUTSHOF
119

Our customer favorite

Cutlery series GUTSHOF

Particularly popular is the rustic design with black handles and rivets in country houses, country inns or beer gardens. And if you rub the plastic handles with oil now and then, they keep their shine.

Chrome steel 18/0! Suitable for dishwashers!

Steak cutlery series PICANHA

The famous TRAMONTINA steak or pizza knives and forks convince with their top quality on the whole line: They are perfectly in the hand and are manufactured to the highest quality for maximum longevity. The particularly hard cutting blade and the handle rivets are made of stainless steel. The handles are made of polywood and thus made of several layers of pine wood, which are impregnated with resin and then pressed, cut into shape and polished. Polywood is characterized by its high stability, resistance and dishwasher safety. The handles still look "new" even after years.

Chrome-nickel stainless steel 18/10! Dishwasher safe!

SURINA

Our modern glass series SURINA made of high-quality crystal glass fits to many styles. Due to the finishing process VEGA Duo Protect it is particularly more break-proof than normal glass. Thus, the glass series has a 37.5% more resistant rim, 105% greater stability against shocks and due to the higher flexibility of the stem it is 96% more resistant against turning off of the stem (e.g. while polishing of the glass). The particularly high transparency of the glass shows the color nuances of the wine perfectly - a real pleasure for the eyes. Moreover the enhanced sound of the glasses when toasting provides a pleasure for all senses. 5-year availability guarantee! Dishwasher safe!

Wine glass
SURINA, from

4⁶⁹

- Fine mouth rim
- Particularly scratch-resistant
- High transparency

✚ 96% higher bending strength of the stem, prevents turning off of the stem while polishing.

*Fine and
robust at the same time!*

✚ A good investment: More break-proof than normal glass through VEGA Duo Protect

✚ Very transparent: Even after 4.000 rinsing cycles the glass keeps its transparency and shine

- Fine mouth rim
- High brilliance
- Beautiful sound

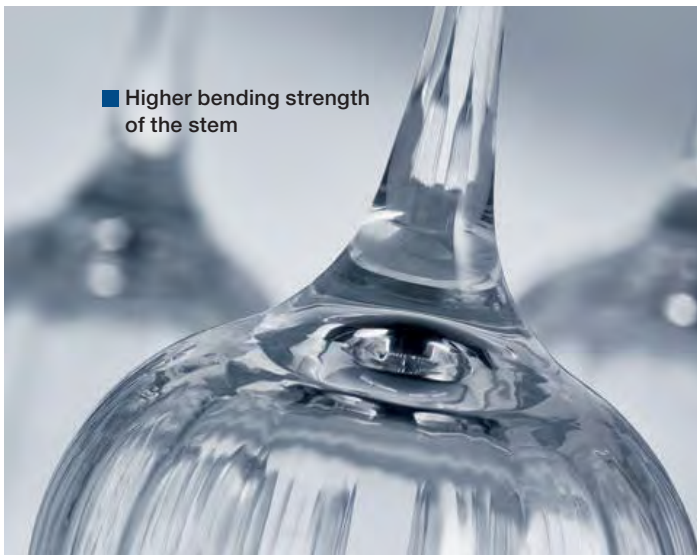

Crystal glass series ADARA and PINEGA

New generation of Vega Duo Protect – unleaded, very clear and break-proof. Thanks to the special production process, the glass has a very high transparency (certified as ultra transparent according to ISO IWA8 2009), which makes it possible to perfectly present the full color range of a wine. Compared to normal glass, the glasses are equipped with a 37.5% more resistant glass rim, 105% greater stability against shocks, 98% higher resistance to stem twisting (e.g. while polishing) due to the increased stem flexibility - which makes them much more breakproof. Vega Duo Protect also has a slightly stronger sound, which creates a pleasant effect when toasting.

Material: Crystal glass. Dishwasher safe! Very robust!
5-year availability guarantee!

Your benefit with ADARA + PINEGA

98% higher bending strength of the stem:
Prevents turning off of the stem while polishing of the glass – saves time and money!

105% higher stability of the goblet:
Less breakage, less reordering necessary.

Crystal glass series SKY

Our crystal glass series SKY is not only characterized by particularly noble, long stems, but also by its high glass quality. The thermal shock hardening achieves a higher surface hardness and thus a higher shock, scratch and breakage resistance, including high transparency and special sound. Made out of one piece - there is no noticeable transition from the goblet to the stem.

Material: Crystal glass. Intense sound! Fine mouth rim! Best stability! Dishwasher safe! 5-year availability guarantee!

Decanter
GLOBE
26⁹⁹

- Hand blown
- Crystal glass
- 2 parts = 1 price

1

Decanter GLOBE

Due to its bulbous shape, wine can absorb more oxygen. The air circulates, without the bouquet escaping. The wooden base serves as a safe stand. Wooden base: LxWxH 14x14x2,8 cm.

Material: Crystal glass. Hand blown!
Dishwasher safe (wooden base not dishwasher safe)!

	ØxH cm	H cm (incl. base)	Content l	Ref.	Piece €

Wooden crate MADITA

This wooden crate made of solid oak wood is a true multitalent: During beer tastings you can present your drinks differently. And as an universal cruet for spices, vinegar, oil and much more it is an eye-catcher on every table. There is space for four glasses, e.g. glass IVA. Simply inscribe the matching acrylic board (please order separately).

Material: Solid oak.
Not dishwasher safe.

Effervescent point

The effervescent point is a small spot on the bottom of the champagne glass, which arises either through a small protruding point or through a tiny roughened point in the glass.

Thus, the carbon dioxide that is dissolved in the beverage is more easily formed into a bubble, which causes that the sparkling wine sparkles more beautifully.
