DUNEO

With clean lines and filigree design DUNEO brings Nordic flair in your rooms. Thus, the tables and chairs with the exposed legs are absolutely trendy. They are made of solid beech and oak wood and fit beautiful in your ambience. Your benefit: You can assemble the individual parts of the series according to your taste - depending on which table shape, size or color you want to have. The high-quality HPL coating makes the table tops robust, scratch-resistant and easy care. The edge made of solid wood also speak for the quality of the furniture. Underline your individual style.

Furniture series DUNEO

This furniture series made of solid beech and oak wood sets your individuality no limits, because it offers almost unlimited combination possibilities! With their Nordic charm, the tables and chairs are very trendy. Thanks to the high-quality HPL coating, the table tops and seat shells are robust, scratch-resistant and easy to clean. The solid wood edge made of oiled beech wood of the table also speaks for the quality of the tables. The table legs are available in solid wood oak or beech, at the chair frames you can choose between two different variants made of solid oak. Including floor-protecting plastic gliders.

Furniture series CAMPANO

The furniture series CAMPANO convinces with best quality and classic simplicity. The material is high-quality, solid oak wood in the colors natural and tobacco stained. The handcrafted surface of the comfortable chairs with their ergonomic seat recesses and the tables in different sizes is lightly brushed and easy to clean. The tables can be extended with additional table tops in two sizes. The connector rails simply disappear under the table top when not in use. Stable struts made of lacquered steel prevent distortion of the table top.

Material: Oak solid, stained.

Solid wood series DONATO

Sturdy robustness combined with a straightforward design. The solid legs of table and bench measure 10x10 cm (stool: 8x8 cm). The table top has a thickness of 1.8 cm and is doubled at the edge to 3.6 cm. The foot rests of the bar tables are protected with aluminum profiles. For daily care, wet wiping of the lacquered surface is sufficient. Delivered disassembled, incl. mounting material and instructions. Stool delivered assembled.

Furniture series TORONTO

Elegant, durable and comfortable: The furniture series TORONTO impresses with its design and quality. With slanted legs and the slanted table top, it inspires your guests. All parts are made of high-quality oak wood and available in natural or tobacco. The foot rest of the barstool is made of brushed stainless steel. At the tables steel bars prevent the table top from warping. Another special feature: Bar tables and barstools are a little bit lower than conventional bar furniture. So they do not seem so bulky in your ambience and make sitting down and getting up easier and more comfortable. The seat recess at the barstools and the bench ensures that your guests sit ergonomic and comfortable - so they will be happy to spend more time at your bar.

Material: High-quality oak wood.

Cutlery cupboard ALDENO

Very handy helpers are our well-made cutlery cupboards, in which you always have cutlery, menus and cruet stands ready to hand. At the same time, the cupboard can also serve as a decorative room divider, because its rear panel is veneered and lacquered. Practical drawer with 6 compartments (LxW 13x32 cm) or 3 compartments (LxW 17x32 cm) for cutlery, napkins and much more. The cutlery cupboards are lined with felt. In the side compartment of the door is a height-adjustable shelf (fig. 9 - 11 LxW 36x38 cm, fig. 7, 8 LxW 58,5x33 cm). There are 2 or 3 possible shelf positions, the distance is 10 cm. In the open side compartment (only fig. 9 - 11) there are two shelves (LxW 58x38 cm).

Material: Real wood veneered! White color is lacquered!

MODULATO – individually combinable

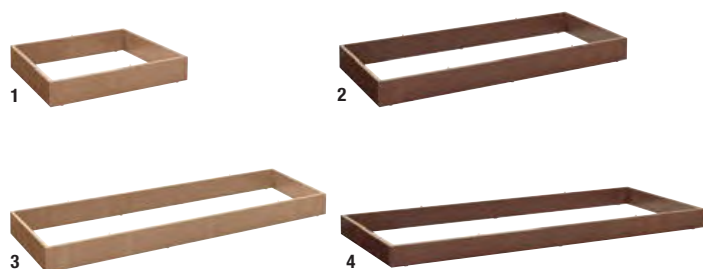

Service station MODULATO

This practical service station system can also be used as a counter or for storage with the front panel. For example, hide the coffee machine or your cash desk. The base module is delivered assembled, top panel, base and front panel can be easily attached. Drawers and doors can be opened by using the practical push-open-system and the high-quality drawers can be loaded up to 40 kg. The two height-adjustable, 16 mm thick shelves are also extremely stable and load-bearing. All service station elements are coated with a very high-quality, robust and easy care plastic decor, which is perfectly suited for gastronomy. Due to their structure and real color, the wood color tones can hardly be distinguished from real wood. Please order the matching base and top panel size according to the required number of base modules

Individually combinable! High-quality workmanship! Push-open-system!

4			anthracite	10070498	129,00

Separation system DIVISO

If you are looking for a changeable separation system that can be used free-standing in the room or on the wall, this room divider is a very good choice! The basic element in natural wood look is available in the decor colors oak, tobacco, mocha or anthracite, which is an eye-catcher in combination with the color-contrast base in stainless steel look. The height of the room divider you determine by the number of additional elements as well as the various insert plates, e.g. planter. In combination with the insert plate made of white coated glass, the room divider can even be illuminated, especially as there is a continuous cable channel in the base element for an invisible attachment of the electrical system. All parts are delivered assembled, the individual elements can easily be plugged together.

Individually combinable!

2. If necessary, add an additional element

Your benefit

The three-dimensional joint enables a dynamic and ergonomic posture and offers optimum comfort for your guests.

Sitniss® by **VEGA**

Furniture series SEQUENCIO

Those who sit for a long time should at least sit as well and healthy as possible! Under the claim VEGA Sitniss you will find first-class conference chairs for ergonomic sitting. The focus of this innovative seating furniture is a three-dimensional seat joint, which decouples the rigid connection to the chair base, thus providing micro-movements while sitting, relieving and strengthening the spine. The height-adjustable and easy care chairs and armchairs are available in different colors, covers and foot base versions. Of course, all chair and armchair legs are equipped with plastic gliders. Please choose your seat element fig. 1 - 4 and foot base (fig. 5 - 7).

Fig. 1 - 4: Please order foot base separately.
Material: Imitation leather or fabric: 70% wool, 25% polyamide, 5% other fibers.

Create your table for inspiring meetings

Table CONFERENCIO

Our furniture series CONFERENCIO inspires your conference guests with modern design and highest quality. The table system offers a variety of combination possibilities. You have the choice between open and closed table legs. Both variants are either made of high-quality brushed stainless steel or powder-coated steel. The open leg has the additional benefit for your conference guests to sit comfortably on all sides of the table. The table tops are available in two decors: Oak tobacco and oak brown-grey. Thanks to the high quality HPL coating they are robust, scratch-resistant and easy to clean. The impact-resistant ABS edges make the table tops more durable and stable. The mounting of the table tops is simple and safe - this ensure the holes with threaded inserts on the underside of the table tops.

Material: Frame stainless steel brushed or powder-coated steel. Table tops high quality HPL surface.

Table tops & bases

Table top FINANDO

Versatility and quality: These table tops inspire with their modern design and fit into any ambience with their large choice of decors! They are made of pressed wood chips and sealed watertight - thus they are perfect for indoors and outdoors. With their low material thickness of only 16 mm they look lightweight and filigree. Choose from the shapes round, square or rectangular and several different decors - as it fits your individual style. Note: In strong sunlight especially dark decors can bulge. This process is normal and the original shape is restored as soon as the insolation decreases. Therefore, we recommend bright decors for the outdoors. Our table bases together with the table top sizes recommended by us, meet the requirements for stability. The table top is simply screwed to the table base. Mounting material is included in the table base.

Easy to clean! UV and weather-resistant!

Table base FLEKSO

Wobbly tables are now a thing of the past! The new table base FLEKSO compensates any unevenness or gradient in the ground quickly, easily and very confidently. This is ensured by a ball joint system patented by VEGA, which makes the flexible adjustment of the table base extremely easy. By turning the table top clockwise and counterclockwise, the mechanism is tightened or released. Optionally available for tables or bar tables. Suitable for all table tops from our range.

Material: Stainless steel, brushed. Flexible adjustment by patented system by VEGA (ball joint)! Weatherproof! For indoors and outdoors.

Flat® technology

The annoying wobble at indoor and outdoor tables finally comes to an end. This is made by the special patented Flat® technology. The hydraulic floor gliders adjust perfectly to any uneven ground. Thus, several tables can be aligned quickly and easily in the height next to each other. Simply align the tables in the desired position. The lock takes place by itself.

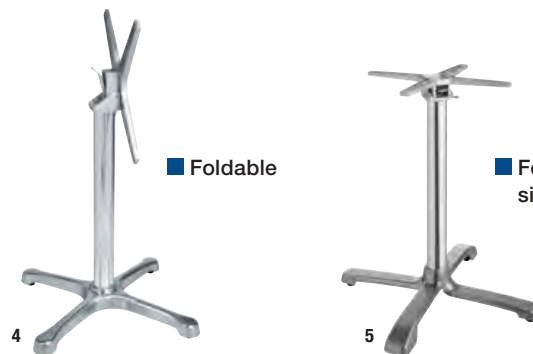

- Hydraulic floor gliders
- The table base automatically adjusts to uneven grounds
- Simple aligning of several tables next to each other in the same height
- The lock is made after aligning the desired position by itself

- Flat® technology
- Automatic adjustment

- Foldable

- Foldable and side stackable

Table base REGULO made of aluminum

The table base with hydraulic floor gliders guarantees stable tables at all times. It is also possible to align several tables next to each other. The models fig. 4 - 6 are foldable and thus save space.

Material: Aluminum or cast iron (fig. 6), with plastic gliders.

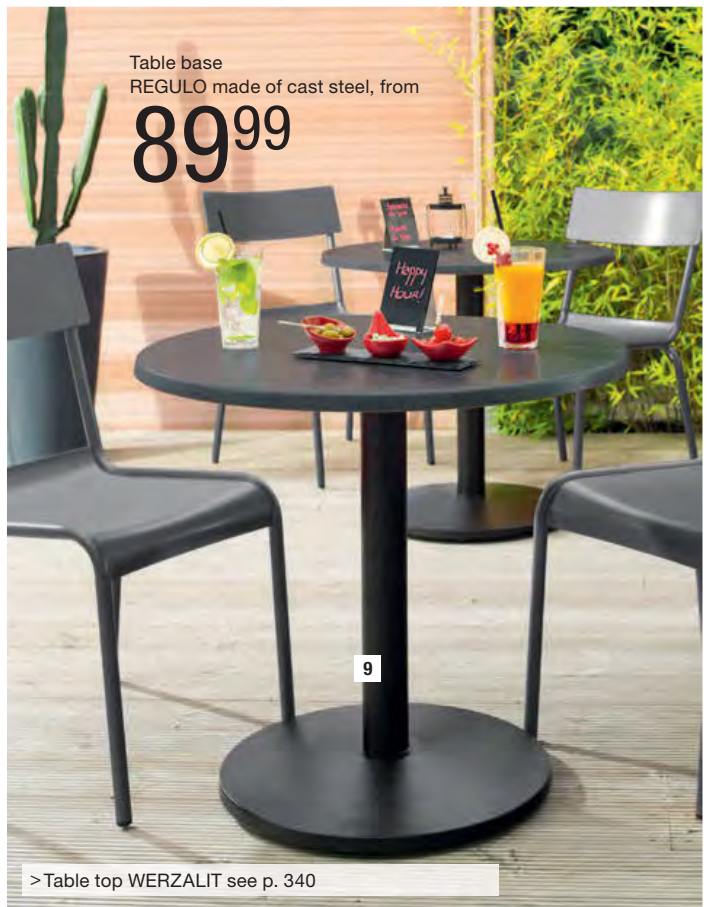

**For indoors and outdoors.

AVENTURO

A clearing trolley that can be assembled according to your wishes. AVENTURO impresses with design and function! With the help of the cross struts (included in the scope of delivery) you can safely transport bottles, glasses and much more on the first and second floor. The separately orderable shelves, GN containers 1/1 and the cutlery holder can be used flexibly - exactly as you need. The frame is made of matt powder-coated aluminum, the shelves are made of plastic. This makes AVENTURO robust and weatherproof, making it perfect for outdoor use. The wheels with parking brake need to be ordered separately and provide you with the necessary flexibility.

AVENTURO – combine individually

Clearing trolley AVENTURO

With its high-quality frame made of matt powder-coated aluminum and shelves made of sturdy plastic, it is extremely stable, UV and weather-resistant and extremely easy care. Stable cross struts (included in the scope of delivery) can be used on the 2nd and 3rd floor for a safe transport of bottles, crockery and much more. Also various GN containers and a cutlery container can be used accurately. This makes this clearing trolley extremely flexible and is the perfect support in your everyday life. Frames and shelves can be individually combined in color with many of our existing chairs and tables. AVENTURO is the best choice for your modern indoor and outdoor ambience.

Made of matt powder-coated aluminum, shelves made of plastic in wood look, cutlery holder made of polypropylene. Suitable for outdoors! 3-year availability guarantee!

1. Choose for the top two levels

> 1 shelf

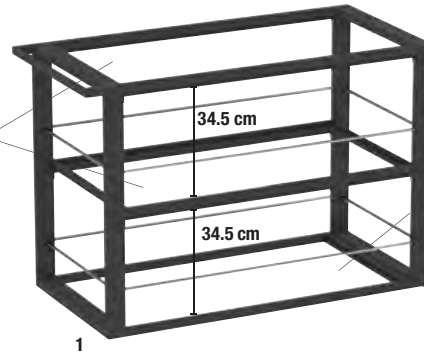

> Or from these 5 parts

■ GN containers in 3 different materials available

> More GN versions see p. 476-479

■ Individually configurable
■ UV and weather-resistant

2. Add one shelf as floor

3. Mount the wheels

Furniture series SOLIST

Combine the available frames made of absolutely weather-resistant, galvanized and powder-coated steel with the existing table and bench tops. These consist of high-quality compact laminate in modern and easy to clean decors. The upper side of the top is divided by narrow milled sections, resulting in a harmonious appearance. The benches can be pushed under the tables to save space and can also be linked theft-proof (see p. 400). Mounting material for the table top is included in the frame.

Design your terrace with the modular LIKA furniture

Lounge series LIKA

The lounge furniture LIKA consists of three individual elements, which can be combined quickly and easily into a complete lounge world. The rounded wickerwork can be combined with the cushions COMBINE. All elements are stackable through a cut-out in the seat, which facilitates storage over the winter. The height of the sturdy legs simplifies cleaning under the seats and the element without backrest can be used as a table and as a stool.

Material: Aluminum frame with polyethylene wickerwork. UV-resistant! Easy to clean! Stackable!

Cushion & all-weather cushion COMBINE

The polyester cover is made of mottled effect material. Seat cushion (fig. 4 - 6, 13, 14) with special non-slip coating on the back.

Cushion cover: 100% polyester. 30 °C washable.

All-weather cushion cover: 100% polypropylene. 30 °C washable.

Special Quick-Dry-Foam® technology! Water-repellent and UV-resistant! Removable!

Breezy vintage ambience

Furniture series ATELIO

This furniture series impresses with its vintage look and at the same time fulfills all the modern requirements. The chairs and tables have a stylish design and are available in three trendy colors, which are also nice to combine. Due to a special surface the tables are particularly easy to clean. The furniture series is made of high-quality powder-coated aluminum and thus is very robust and insensitive to bad weather conditions. Even indoors they harmoniously fit into any vintage or shabby chic ambience. Including ground-friendly plastic gliders.

Material: Powder-coated aluminum! Easy to clean! Chair stackable!

Teakwood series ALICANTE

In high-quality we are happy to offer chair, bench and the matching table made of plantation teakwood. Teak is considered to be particularly weatherproof, but after a certain time it can form a silvery shiny patina. This is quite natural and does not represent a defect. If you want to keep the original color of your teak furniture permanently, you should treat it once a year with our teak care kit (see fig. 3). The bench is delivered disassembled.

Weatherproof! Chair and table foldable!

A perfect combination of modern design and high-quality workmanship! The frame of these chairs looks like noble wood, but is made of powder-coated aluminum. This makes the chairs not only lightweight, but also robust and weather-resistant - making them ideal for outdoor catering. The seat and back are made of weatherproof plastic fabric. The slightly wide seat of the lounge enables ergonomic sitting. Practical: Due to their low weight, all four models are stackable and can thus save space. Plastic glides on the legs protect the ground.

Material: Aluminum, powder-coated. Plastic. Weatherproof! Stackable! 3-year availability guarantee!

Available in 3 stem colors

Professional sunshade ESPARTO

Professional large sunshade with extremely sturdy aluminum frame. The frame is powder-coated. The stem with Ø 60 mm and 8 reinforced struts (18x28 mm) give the sunshade the necessary stability. The UV-resistant, lightfast and extremely water-repellent cover with valance made of 230 g/m² polyester provides ideal protection against heat and UV rays. The integrated sliding system is supported by a spring inside the stem. This guarantees effortless opening and closing above the tables. Plastic covers at the end of the struts protect the lining. When opening and closing the large sunshade, watch out for objects and people. The sunshade must be closed at wind strength of 7 m/s. Please order at the same time: Plate base for stem Ø 60 mm.

Material: 100% polyester.

Control via Bluetooth

- Free VEGA smartphone app
- Remote control of the radiant heater with the smartphone
- Bluetooth system with 20 m range

The infrared radiant heaters SAHARA, TARIA, PATAGONIA and SONORIA are equipped with Bluetooth so you can control the radiant heaters with your smartphone. Practical: The Bluetooth system allows you to operate several radiant heaters at the same time, turn them and also play music on certain models. You can download the necessary, password protected smartphone app in our online shop for free. Our infrared radiant heaters are compatible with Android smartphones from version 4.3 and Apple iPhones from iOS 7.

Infrared radiant heaters SAHARA and TARIA

Easily control your infrared radiant heater with your smartphone! The radiator with the aluminum housing is available with a power of 1500 W or 2000 W and can be regulated either via remote control or smartphone app which is password protected. With the remote control, five heating levels are possible, via the app the radiant heater can be controlled stepless from 0 to 100%. Especially important for the gastronomy: Via the app, up to 100 infrared radiant heaters can be controlled simultaneously or independently of each other. So your guests can still sit outside comfortably even in cooler weather - and that without long heating of the radiant heaters! Infrared tube: Gold tube Ultra Low Glare. Wall and ceiling mounting, mounting material is included. For indoor and protected outdoor areas.

Material: Aluminum housing with protective grid.

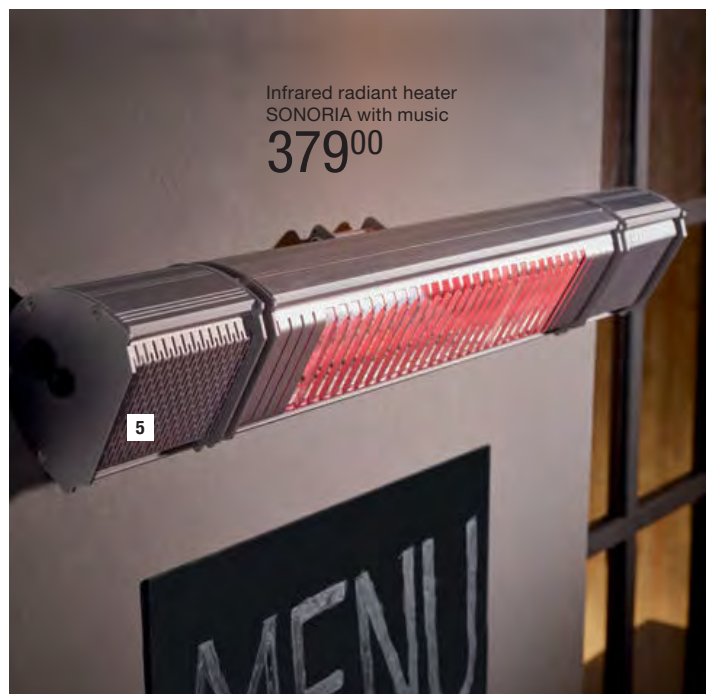

2 years warranty. CE mark.

Suitable for indoor and protected outdoor areas!
