# Create your separation system in 3 steps!

## Outdoor separation system CAYA

You want to separate your outdoor area from the street or from other places? This is easily achieved with this easy-care, high-quality, robust and height-adjustable separation system. It is versatile and offers first-class wind, noise and dust protection. The easy construction works by feet, with or without anchoring in the ground. Individual shapes with adjustable connector elements, different sizes and wall elements that can be labelled with chalk markers offer a lot of creative freedom. Delivery within 5 weeks ex works.

**Material walls: Powder-coated aluminum and and safety glass; Material feet: Galvanized steel; Material connector elements: Powder-coated aluminum.**

## 1. Choose a separation wall

2 colors and 3 sizes are available.

- Weatherproof
- UV-resistant
- Individually combinable

The exclusive something

### Customize

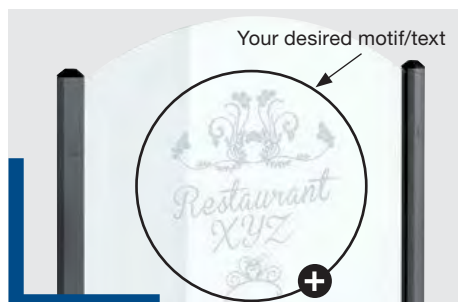

- With your favorite motif
- With your individual text
- In your favorite color

Film  
ETHAN  
22<sup>99</sup>

Board  
ROLLOTEO  
99<sup>99</sup>

- Removable without residue
- Suitable for all smooth surfaces

- Easy to handle
- Easy to clean

### Film ETHAN

Our self-adhesive film is versatile. You can tailor it to any size and shape. The film can be glued to flat walls, doors, furniture or other smooth, dust and grease-free surfaces and then labeled with our chalk markers. It is removable without residue, robust, tear-resistant and can be wiped off with a damp cloth. Paper thickness 0.06 mm.

**For indoors only.**

	WxH cm	Ref.	Piece €
1	60x120	10070693	22,99

### Board ROLLOTEO

Original board and great eye-catcher at the same time. It can be easily mounted on the wall by a hanging strip (mounting material not included in the scope of delivery). Practical tear-off edge enables easy changing of the menu. Please order paper roll separately. With integrated tray for pens.

**Material: Aluminum, powder-coated. Wet wipeable!**

**For indoors only.**

More table signs can be found at  
[www.em-group.com](http://www.em-group.com)

Tray for pens

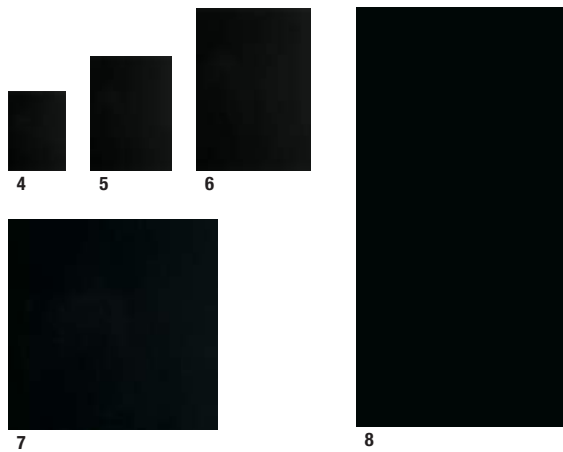

Tear-off edge for easy changing

Tray for unwinding

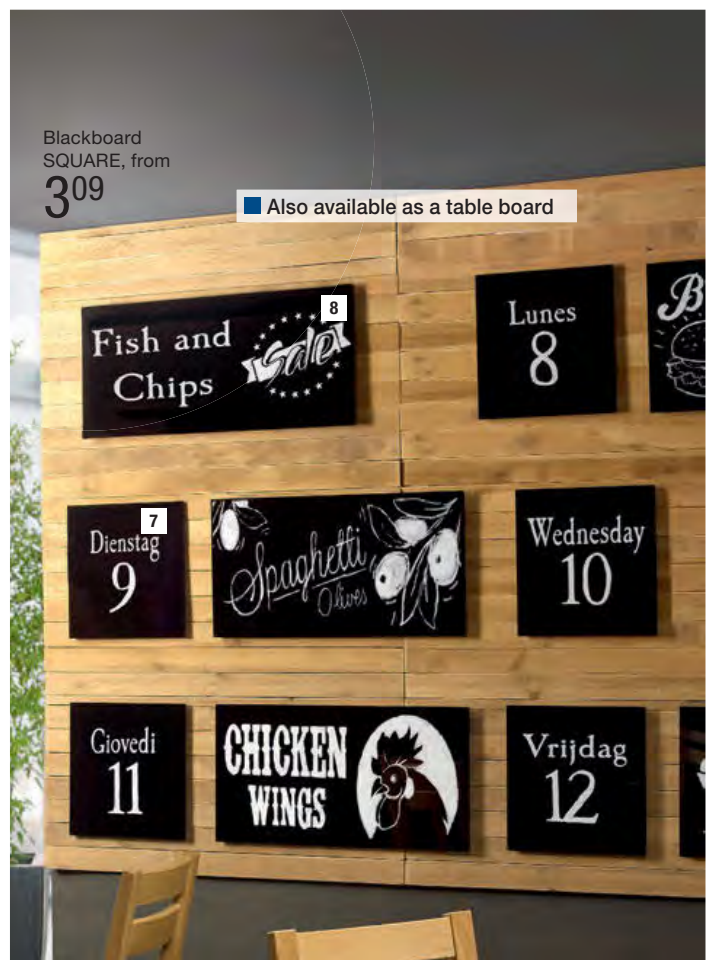

### Blackboard SQUARE

Made of acrylic. The boards can be hang up and down easily due to the rail on the board and wall (rail included, not applicable to boards in the sizes A4, A5, A6). This allows individual combinations and a mix of different colors. For the inscription we recommend our chalk markers. Please clean the board only with a soft, damp cloth and mild cleaners. The rectangular blackboards can be hung vertically and horizontally.

Printable on request! For indoors only.

# COLORADO

Do you want to present your daily menu in a modern and unusual way? Our clipboard COLORADO is the right solution for you! It is made of anodised aluminum - making it robust and resistant to scratches and other external influences. Thanks to the integrated clip, which is firmly attached to the clipboard, the daily menu can be easily exchanged. The special detail: The imitation leather loop on the corner where you can easily hang the menus. Or you can store them in our wooden crate (see p. 103) to save space.

### Menu CALGARY and PERRON

Handmade menus made in European Union. Extremely hard-wearing, scratch and tear-resistant cover material that can hardly be distinguished from natural materials. Great feel, impermeable to dirt and moisture, water-repellent, tensile and wear-resistant. Easy to clean, wipeable. An ideal material for intensive and long-term use - saves money and time in the hectic daily routine! The highlight: A particularly easy-to-handle clamp binder function. Holds 10 to 40 sheets. Easily replaceable thanks to the durable and sturdy clip back. Wear-resistant - therefore ideal for outdoors. Available with and without embossing.

**Material: Polyurethane. Easy to clean! Insensitive to stains! Hard-wearing!**

### Menu CALGARY

With a simulated, yet authentic wood grain.  
With embossing "Delicious & Tasty" as non-whole-area print.

#### Multiply 3 layers:

Consists of 3 layers of metals with complementary and qualitative properties:

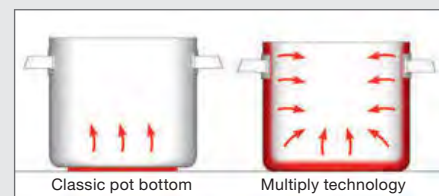

- The inner layer is made of 18/10 stainless steel: An ideal and professional non-stick coating
- The intermediate layer is made of aluminum: Best thermal conductivity from the bottom to the edge
- The outer layer is made of magnetizable 18/0 stainless steel: Allows ideal cooking and is compatible with induction hobs

#### Multiply 5 layers:

Consists of 5 layers of metals with complementary and qualitative properties:

- The inner layer is made of stainless steel 18/10, the outer layer of 18/0
- Between the two layers are three layers made of aluminum. The alloy creates the connection between the pure aluminum and the stainless steel. This interplay of different materials makes Multiply very powerful

#### Heat distribution with Multiply

Multiply 3 or 5 layers provides ideal heat distribution. The heat comes not only through the bottom of the pot, but evenly distributed through the entire surface up to the edge.

This feature guarantees a gentle, economically cooking.

Stockpot  
ODISHA, from  
**99<sup>99</sup>**

- 3-ply multi-layer material
- High thermal conductivity
- Stable riveted handles
- Real copper outer layer

ALL HEAT SOURCES

### Pot series ODISHA

- Material: 3-ply multi-layer material with a material thickness of 1.8 mm
- Outer layer in copper develops over time the copper-typical patina
- Induction bottom
- Suitable for all heat sources
- Practical pouring rim
- Stable riveted handles
- Liter scale
- Stainless and oven proof up to 220 °C
- Delivery without lid, please order separately (see p. 452, fig. 7)
- Not suitable for dishwashers

**The burn-in effect**

Burn-in effect: Frequent use makes the frying pan better and better. The blacker the pan, the less sticky!  
(Applies to fig: 1, 3 - 8)

## The right pan for every application

Professional cast frying pan from **79<sup>99</sup>**

Professional square cast frying pan with grooves **94<sup>99</sup>**

- Aluminum cast
- Titanium non-stick coating
- Abrasion resistant surface
- Energy efficient

Flat bottom wok from **84<sup>99</sup>**

**Professional cast frying pan**

- Material: Aluminum cast
- In an elaborate hand-cast process, the professional cast frying pans are cast in one piece and completely stress-free, which means that the pan body cannot deform even at high temperatures
- The titanium non-stick coating allows cooking without grease or oil and prevents sticking of the food
- Abrasion resistant surface
- The all-round thermal induction bottom of 8 mm made of ferromagnetic special steel builds up a particularly strong magnetic field and thus ensures optimum energy absorption and even and rapid heating
- Temperature resistant up to 420 °C, up to 250 °C oven proof
- Suitable for dishwashers

## Care instructions for chef knives

### ■ Cleaning

Do not put knives in the dishwasher. The temperature differences and friction with other utensils damage the blade. After each use, wash the knives with warm water and a soft sponge and, if necessary, with a little pH neutral dishwashing detergent.

### ■ Drying

Wipe the blade with a dry tea towel on each side immediately after cleaning.

### ■ Sharpening

Before each use, the knives should ideally be peeled 3 to 4 times on a sharpening steel, a grindstone or a knife sharpener.

Toaster/Salamander grill  
from  
**179<sup>00</sup>**

- Removable grease tray
- Cooling rack with insulated handles

**Toaster/Salamander grill**

- Material: Chrome-nickel stainless steel 18/10
- Not suitable for nonstop operation (applies to fig. 8 - 9)
- Suitable for all types of bread
- Allows quick gratinating
- Infrared radiators protected against damage
- Separate control of top and bottom heat (applies to fig. 10)
- Intervals of heat development and shutdown can be set in 3 stages (applies to fig. 10)
- 2 years warranty
